

ChileSec

Uniting New Mexico's Cybersecurity Community

Mission Statement

ChileSec aims to unite and empower the cybersecurity community in New Mexico by fostering collaboration, mentorship, and professional growth, while maintaining a strong connection with the New Mexico Cybersecurity Governance Board.

Description

ChileSec is a community-driven platform designed for cybersecurity professionals and newcomers in New Mexico. Our focus is to bring together individuals from various backgrounds and skill levels, creating a space where they can share knowledge, network, and collaborate on projects. We strive to maintain open communication with the New Mexico Cybersecurity Governance Board, ensuring that our community stays informed and engaged in the state's cybersecurity initiatives.

Our core values include inclusivity, transparency, kindness, and a spirit of teaching and mentorship. We pride ourselves on being a complementary resource to other cybersecurity groups in New Mexico, acting as a centralized hub for job postings, events, and general inquiries about the field.

As a grassroots organization with no corporate sponsorships, ChileSec remains an unbiased and genuine voice for the cybersecurity community in New Mexico.

Why ChileSec?

- A centralized platform for New Mexico's cybersecurity community to connect, share knowledge, and find opportunities.
- Strong connection and communication with the New Mexico Cybersecurity Governance Board.
- Inclusivity, transparency, and a spirit of mentorship.
- Complementary to existing cybersecurity communities in New Mexico.
- Community-driven with no corporate sponsorships or third-party influence.
